ARIA PARTH CONFERENCE BRIDGE SYSTEM
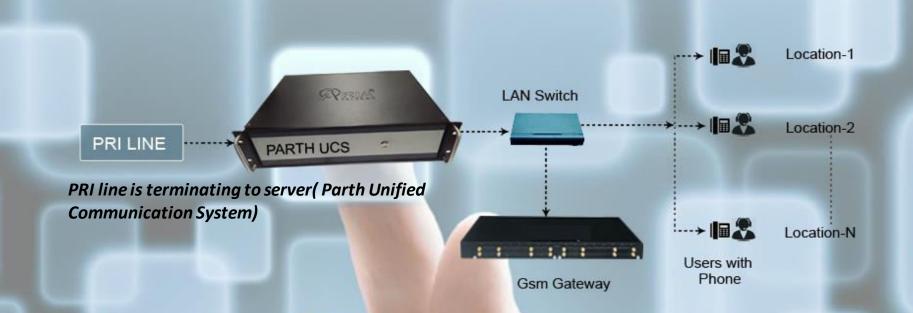

Aria Telecom Solutions Pvt. Ltd.

What is Conference Bridge?

➢ Conference Bridge is an application to generate multiparty telephone conference system with authentication. It can be on inbound or outbound calls.

➢ In Conference Bridge, you can allot one dedicated number for conference. System will automatically answer all calls & ask the caller to press his pin & to record his/her name. Conference timing can be sent to all participants by email or SMS. Another way is, system can call all the participants at scheduled time & take them into the conference room without wasting any time.
